

This document contains release notes for the Release 3.11 of FOIAonline, for release after COB on August 19, 2019. This document provides a summary of enhancements, bug fixes, and other updates contained in the release.

New Enhancements

- Updated referrals so users can set the Perfected Date on new referrals and clock information is based on the Perfected Date.
- Refined the Audit Log Report so Helpdesk users can access relevant case file information.
- Added the ability for Helpdesk users to run the Authentication Report to review login authentication attempts.
- Added the ability for Helpdesk users to run the Released Case Information Report to review case files with request information released to the public.

Bug Fixes

- Fixed issue where public users would get an error message when submitting requests with Expedited Processing or Fee Waiver tasks associated.
- Fixed issue where FOIA Officers would not receive notifications when cases or tasks were assigned to their organization.
- Fixed issue where Sections V.B.I. and VI.B of the Year-End Annual Report would have Total columns missing.
- Fixed issue where PDFs generated in FOIAonline, including invoices and printed case files, would display with the right side of the page cut off.
- Fixed issue where the Annual Report Title would not match the report generated.
- Fixed issue where Total rows would not populate correctly on the Requests Granted and Processing Time Annual Reports.
- Fixed issue where the Public Requests Received Report would not generate.

Other Updates

- Updated permissions on comment creation so comments display when saved on a case file.
- Added text to the pop-up on Delinquency Report generation to alert users of possible load time.
